

Beaver Island Wildlife Club NEEDS YOUR HELP

HELP US PROTECT THE HERD!

Do not bring unprocessed deer parts (including heads!) to Beaver Island.

Recent conditions in mainland and other states' deer could impact our herd. No bone matter should be transported to the island.

SUBMIT YOUR DEER HEAD FOR TESTING!

Deer heads (bucks and does) are being collected this fall to determine our "disease free" status. Call Jacque 231-448-2220. Some paperwork and tags need to be completed on each head submitted. We would like to obtain some from all areas of the island. (Buck hunters may cut off antlers before submitting head)
